

# STATEMENT OF TEACHING INTERESTS AND EXPERIENCE

Juliane Hennecke

*September 2018*

---

---

In line with my research focus, also my teaching interests and experiences are mainly located in the fields of **microeconometrics, labor economics and behavioral economics**.

**Teaching Experiences** Due to my activity at two different chairs during my PhD, I was able to collect teaching experience in quite diverse fields of economics. In my function as a research and teaching assistant at the **Chair for Empirical Economics** (Prof. Dr. Marco Caliendo) at the **University of Potsdam**, I was mainly involved in the preparation and teaching of applied and methodological courses such as “Introduction into Statistics” and “Econometrics” on the undergraduate level as well as “Applied Microeconometrics” and “Public Policy Evaluation” on the graduate level. During my time as a student assistant between 2012 and 2013 as well as during my employment as a research and teaching assistant later on, I was continuously involved in the (administrative) organization of the teaching as well as the preparation of the course material for all of those courses. Additionally, I was actively involved in the teaching of the courses “**Applied Microeconometrics**” and “**Public Policy Evaluation**” through exercise sessions, STATA introduction sessions as well as the general supervision and grading of the students for the independently conducted parts of the courses such as term papers and problem sets during summer term 2015 and winter term 2017/2018. Additionally, I taught two exercise sessions in the undergraduate course “**Introduction into Statistics**” in the summer term 2018.<sup>1</sup> Furthermore, I was continuously involved in the organization and supervision of seminars and bachelor theses. I thus e.g. supervised theses with the topics “Stability of Personality Traits” (bachelor thesis), “The Migrant-Native Gap in Well-Being” (seminar thesis) and “The Effect of Migrants on the Well-Being of Natives” (bachelor thesis).

---

<sup>1</sup>Evaluations for those courses are attached to the application or can be obtained upon request.

As a PhD student at the “**Chair of International Public Economics**” (Prof. Dr. Ronnie Schöb) at **Freie Universität Berlin** I also used the chance to collect teaching experiences by being actively involved in seminars such as “Normative Behavioral Economics” (master level) as well as theses supervision such as e.g. “The Influence of Personality on the Relationship between Productivity and Pay” (bachelor thesis) and “Socio-Economic Determinants of Strategic and Protest Voting” (master thesis). In the summer term 2017, I was actively involved in the teaching of the Assistant Professor of Labor Market and Social Policy (Prof. Dr. Katja Görlitz) by teaching the exercise sessions for her course “**Introductory Labor Market Theory**” on undergraduate level. <sup>2</sup>

**Teaching Interests** Based on these diverse experiences, I am interested and prepared to enrich the teaching in any institute with courses in applied and methodological as well as theoretical topics. I am prepared and willing to teach undergraduate courses in topics such as “Statistics” and “Econometrics” but also in “Microeconomics”, “Labor Economics” and “Behavioral Economics”. I would, based on my experience, be especially interested in the applied aspects of those topics. Due to my very applied focus in teaching and research, I am also looking forward to organizing and conducting seminars, hands-on sessions as well as thesis writing in those fields. On the advanced (graduate or doctoral level) I hope to enrich the teaching with courses on e.g. “Applied Microeconometrics”, “Applied Behavioral Economics” and “Applied Labor Economics” as well as more specialized courses on topics such as for example “Personality Psychology and Economics”, “Recent Topics in Population Economics” or, based on my research, even more specialized special-interest seminars on topics such as “Migration”, “Family Labor Supply”, “Unemployment Effects”, “Health Behavior” and “Volunteering”.
